

MEBA sawing solutions.

MEBAECO METAL-FABRICATOR-EDITION

SAWING. MEASURING. TRANSPORTING – DESIGNED AS A SINGLE UNIT

Two semi-automatic machines. Two well-designed, comprehensive solutions.

PRECISE
Precise cuts for perfect results

RELIABLE
MEBA Quality for Maximum Process Reliability

READY FOR USE
Complete package with options and accessories

ECONOMICALLY
Work more efficiently and improve results

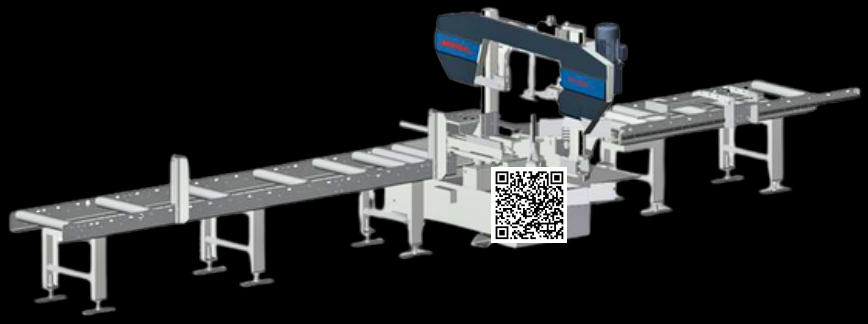

METAL-FABRICATOR-EDITION

MEBAECO 335 DG

The compact, professional semi-automatic machine for flexible applications in metal fabrication

- Infeed roller conveyor 4000x500
- Outfeed roller conveyor 2000x500
- MLD measuring stop

- Laser light for cut line indication
- Powered chip brush
- Micro-dosing system
- Clamping pressure control
- Manual material lifting roller
- LED work light
- Water spray gun
- Mounting brackets
- Manual miter adjustment, digital readout with 0.1° accuracy

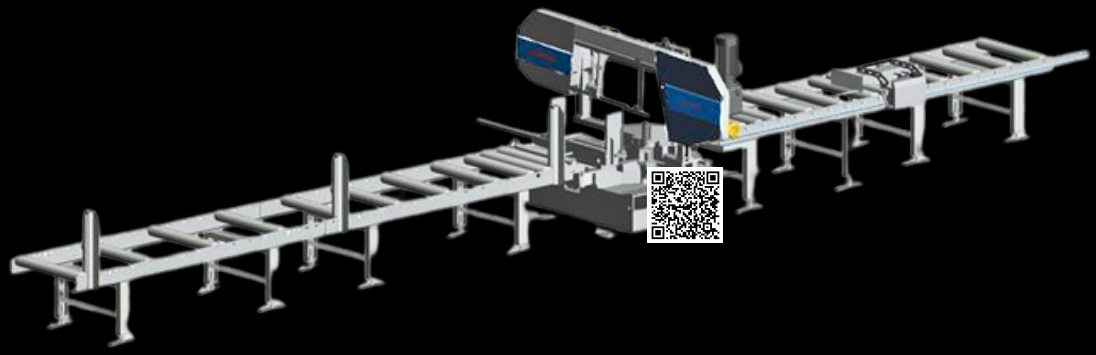

Powerful semi-automatic miter saw, ideal for precise, flexible cuts with a variety of materials and angles.

MEBAECO 410 DG

Greater performance for larger material dimensions and maximum productivity

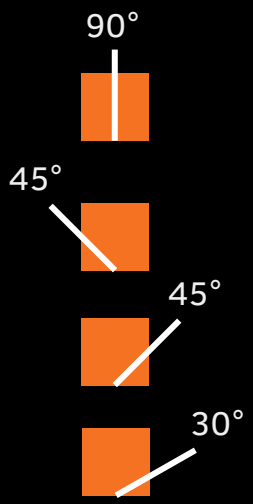

- Infeed roller conveyor 6000x700
- Outfeed roller conveyor 4000x700
- MLDV measuring stop

- Laser light for cutline indication
- Powered chip brush
- Micro-dosing system
- Clamping pressure control
- Manual material lifting roller
- LED work light
- Minimum speed monitoring
- Water spray gun
- Mounting brackets
- Manual miter adjustment, digital readout with 0.1° accuracy

High cutting performance, robust construction, and maximum reliability—ideal for professional metal fabrication thanks to efficient workflows and minimal downtime.

CUTTING AREA

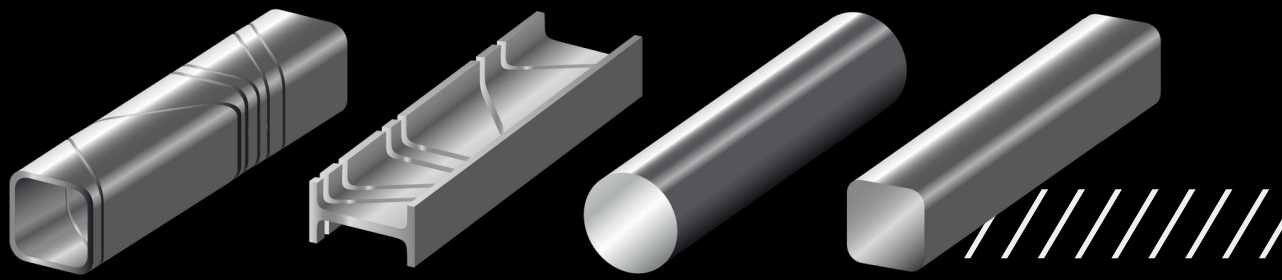

Ø 335 / 500x335 mm - 335 DG
Ø 410 / 700x410 mm - 410 DG

Ø 305 / 305x335 mm - 335 DG
Ø 410 / 430x410 mm - 410 DG

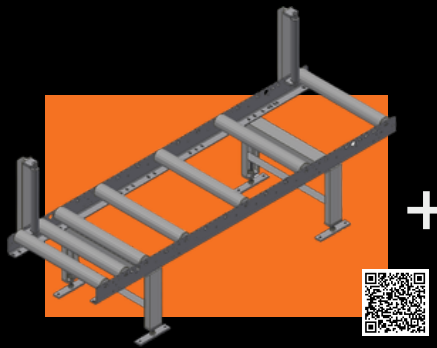

Ø 330 / 320x335 mm - 335 DG
Ø 410 / 500x410 mm - 410 DG

Ø 180 / 170x335 mm - 335 DG
Ø 320 / 230x410 mm - 410 DG

THE SOLUTION FOR MODERN METAL FABRICATORS

The MEBAeco Metal Fabricator Edition combines proven MEBA quality with practical features for precise, reliable, and cost-effective processes—ensuring dependable, time-saving, and professional performance in everyday use.

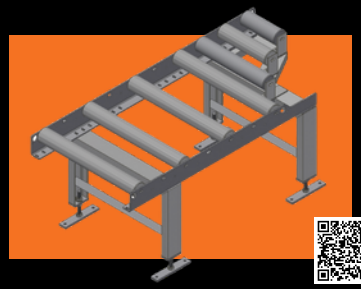

Feed roller conveyor
Precise feeding

WHY MEBA?

PROVEN MEBA QUALITY
Rugged machines designed for continuous industrial use

BY PROFESSIONALS, FOR PROFESSIONALS
Designed to meet the needs of metal fabricators worldwide

PARTNERSHIP AND SERVICE
Personalized advice, quick assistance, and reliable support

EFFICIENT AND PRODUCTIVE
Precise, cost-effective, and highly available

MEBA SINCE 1958
As a pioneer in the field of band saws, we have been developing and manufacturing high-quality sawing technology for over 65 years. Metalworkers around the world rely on our solutions—day in and day out. Genuine Swabian quality that delivers on its promises.

- Designed and manufactured in Germany
- Used worldwide
- Personalized consultation and reliable service
- Tradition, innovation, and precision
